Subject: the good it has done..

Without Windows from Microsoft, I wouldn't have a computer, know what the Internet was nor have a lot of contact with the world of 2002. I am stunned by what the DoJ thinks is wrong with Microsoft. As usual, no one in the real world (non-government) is offended, hurt nor angry with someone who has done a good thing for the majority of Americans. Show me the millions of people that complained about " M" then go after them with all your might. Until then chase the millions of truly bad people there are in America, like the FBI office in Boston.
